

Mortgage Life Insurance

When it comes to insuring your mortgage, you have two choices ...

...well only one *really!*

Mortgage Life Insurance

- **Creditor mortgage insurance** offered by lending institutions when a mortgage loan is approved.
- **Personal mortgage insurance** plan offered by Manulife Financial.

Creditor mortgage insurance benefits the lender

- Lender is the sole beneficiary
- Death benefit decreases over time
- Premium stays the same
- With every payment, you get less value for your money
- If you switch lenders, you'll need new mortgage insurance, and may pay more because you're older or may not qualify
- Insurance can be cancelled by the lender without warning

A personal mortgage insurance plan is a better option for **you**

- You decide who the beneficiary will be
- Your beneficiary spends the tax-free death benefit
- Death benefit stays the same
- You can transfer your mortgage
- No need to reapply
- No risk of losing your insurance
- You are in control
- You can cancel or alter your coverage when you choose
